Contact			The Business Development Division in each city and town			

^{*}Note 1: "Productivity" refers to the following. ··· · Physical labor productivity = Production volume ÷ Number of employees · Value-added labor productivity = Production value ÷ Number of employees

[&]quot;Growth sector" refers to the following. ... Factories that manufacture products such as food, pharmaceuticals, medical equipment, and environment-related goods. Since determinations of growth sectors are made through examinations conducted by cluster support organizations and similar bodies, please first consult the Shizuoka Prefecture Business Development Division if you wish to have your business reviewed as a growth sector

^{*}Note 3: The subsidy rate, limit, and other conditions may differ depending on the city or town. Please contact the relevant city or town office for further details.
