

II Distribution method for acceptance notification letters and related documents

Up to the 2023 school year school admissions selection, acceptance notification letters and related documents for multiple high schools were brought to a single location, picked up by junior high school teachers, brought back to the junior high school, and finally distributed to the accepted students.

However, after receiving requests from junior high schools that "wanted students to take the first hopeful step toward their continued high school education," starting from the 2024 admissions selection, acceptance notification letters will be distributed directly to accepted students at the high school on the day admission results are announced, as shown below. Also, to avoid congestion and ensure a smooth reception of the documents, the examinee numbers for accepted students will not be posted at each high school.

(Up to the 2023 admissions selection)

(Starting from the 2024 admissions selection)

Collection method for acceptance notification letters and related documents

- Using the Prefectural Board of Education's designated website for publishing successful applicants, confirm the successful applicant publication. Personal selection results can also be confirmed using the web application system.
- Either the applicant themselves with an examination ticket or a representative with a permission letter will come to the school that administered their test on the day successful applicants are announced (Friday, March 13th) by 4:00 PM to receive the acceptance notification letter and related documents directly.

Points of Caution

- Successful applicants will only be published on the designated website. Examinee numbers for successful applicants will not be posted at each school. Applicants that applied online can also confirm the results using the web application system.
- Details regarding things like the designated website and distribution time or how to come to the school to receive an acceptance letter will be distributed at each high school after the academic ability evaluation (Wednesday, March 4th).
- When successful applicants go to receive their acceptance notification letter, please be sure to bring the examination ticket (if a representative with a permission letter will receive the acceptance letter, an examination ticket is not required). To that end, please be sure to keep the examination ticket safe even after the academic ability evaluation, interview, and other items have been completed.
- When coming to a school to receive an acceptance letter, please arrive by foot or public transportation. As a general rule, personal vehicles cannot enter the school grounds. Thank you for your understanding and cooperation.
