</tr>
</tbody>
</table>

**Best season for Matsuzaki Port**

**March - July**

**Rainfall/Temperature**

**Wind (Incidence of wind speed less than 10m/s*)**

* Incidence of days when the wind speed during the ship passage period of 8:00 to 17:00 is less than 10.0m/s based on hearings from shipping companies.

【Sea state//Rainfall//Temperature】 Matsuzaki Regional Observatory (January 2013 – December 2017)
5. Flow Planning (1) (Planned use of Wharf of 5.5m water depth)
5. Flow Planning (2) (Planned use of Matsuzaki Pier/Matsuzaki Unloading Wharf)

[Point of attention]
Since no space for buses to stand by can be found, buses are to move to a separate area after passengers get on or off the bus at the bus stand. There is also no space for visitors’ parking, therefore measures have to be taken, for example, using any adjacent site kept for constructing another wharf.
